

CHARACTERISTIC

Optimization
More power output

Rapid Shutdown
Comply with Sunspec standard

Voltage Limitation
Long string design enhance LCOE

3%-25%
Retrive power generation loss

Monitoring
PLC & Wifi

Hot spot
Ensure safe operation of PV module

APPLICABLE SCENARIOS

TECHNICAL SPECIFICATION

Input Parameter	Max power input	800W	conversion efficiency	peak conversion efficiency	99.70%
	Operating Voltage Range	8V-80V		power dissipation@12A	99.6%@Vin:70V,Duty:95%
	MPPT operating Range	17V-60V		power dissipation@14A	99.7%@Vin:60V,Duty:95%
	Max input current	20A		power dissipation@17A	99.5%@Vin:50V,Duty:95%
	Over current protection	25A		power dissipation@20A	99.6%@Vin:44.5V,Duty:95%
	Over temperature protection	135°C		dimension	164*35*21.5mm
	Max output current	20A		weight	340g
	Theoretical Max Output Voltage	42V/adjustable		cable	IEC 2000V
Output Parameter	Max system voltage	2000V	specifications	connector	MC4 compatible
Design Standard	Design lifespan	25years		Working Temperature	-40°C ~ +85°C
Function	standard	Optimization+RSD +Monitoring		IP protection	IP68
